Road Foreman Report:

New Business:

- Septic system in Road Right of Way on Anderson Road –

Discussion regarding placement of new septic mound at 1077 Anderson Rd. and its proximity to 25 foot setback. Discrepancies were found in tax maps and town highway maps as to whether the road is a town maintained road. The town has been advised to continue to maintain the road, as has been done for years, as there are 4 homes beyond the point of question.

Agreement was made to cut a minimum of 3 feet off the toe of the mound, and more if possible, without disrupting the integrity of the system. There is not room on the property to move the septic to a new location. A written document will be drawn up between the real estate and town lawyers acknowledging the town will not be held liable if the mound is disrupted during normal road maintenance work.

Selectboard representation, realtor, home owner and septic engineer agreed to meet on September 3, 2020 at 2:30 pm on site to examine maximum possible footage to be removed from new mound system.

- Change of Selectboard Meeting Times

Jon made a motion to change meeting times back to 6:30 pm until at least the beginning of November, at which point the time will be revisited. Todd seconded. All in favor. Motion passed.

Old Business:

- Ice Rink Update

Discussion ensued regarding leveling work to be done on town green in order to construct ice rink this winter. Upon adjusting slope of the green, it will become clear how much topsoil will be needed eventually to re-seed in the spring. Long term vision of pavilion, structure for both ice rink, pickleball court and gathering place was discussed. Funding for that will need plan and community leadership and effort.

Jon made a motion to spend up to \$5,000 for leveling project. Todd seconded. All in favor. Motion passed.
